Guess the output ...

```
const amar = { money: 1000 };  
const akbar = Object.create(amar);  
const anthony = Object.create(akbar);  
console.log(anthony.money);
```

Clear selection

Which is not a valid way of destructuring?

```
const person = {  
  f_name: "Arjun",  
  l_name: "reddy",  
};
```

Clear selection

What is the output?

```
let obj1 = {};  
let obj2 = {};  
console.log(obj1 == obj2);
```

Clear selection

What is the scope of a?

```
let a = 10;  
  
function x(){  
  a = 20;  
}
```

Clear selection

What are the two phases of executing a JS code?

Clear selection

What does Object.freeze() do?

Clear selection

What is the output?

```
console.log(`${calling} Nrupul`);  
  
let calling = true;
```

Clear selection

Which concept is used in below code?

```
var person = () => {  
  var name = "Nitin";  
  
  return function () {  
    return name;  
  };  
};
```

```
console.log(person())();
```

Clear selection

Object is prototype of?

Clear selection

What are classes in JS?

Clear selection

What will be the output?

```
function Person (name){  
  this.name = name;  
}  
  
let p1 = new Person("Andy");  
p1.prototype.print = function(){  
  console.log(this.name);  
}  
  
p1.print();
```

Clear selection

What will be arr?

```
const arr = new Array(4).fill([]);  
arr[2].push(5);
```

Clear selection

What will be the value of max?

```
const numbers = [1, 6, 2, 3, 8];  
const max = Math.max.apply(null, numbers);
```

Clear selection

Is this code wrong? if so how can we correct it?

```
let a = 10;

{
    var a = 20;
}
```

Clear selection

De-structure for "f_name" and "pincode". Fill in the blanks:- let _____ = person;

```
let person = {
  f_name: "Bajrangi",
  address: {
    street: "abc",
    pincode: 456789,
    state: "jharkhand",
  },
};
```

Your answer

What is the output?

```
var a;  
function x(){  
    a = 10;  
}  
console.log(a);
```

Clear selection

What will be the output?

```
var a = 1;  
setTimeout(() => {  
    console.log(a);  
}, 0);  
for (let i = 0; i < 10; i++) {}  
a++;
```

Clear selection

What will be the output?

```
{
  console.log(a);
  console.log(b);

  var a = 10;
  let b = 10;
}
```

Clear selection

Which is NOT a valid way to create object?

Clear selection

What will be the output when executed?

```
✓ function Person () {
  console.log(this);
}
```

Clear selection

Which of the following data types is immutable?

Clear selection

What will be the output?

```
const sum = new Function('a', 'b', 'return a + b');  
  
console.log(sum(2, 6));
```

Clear selection

What will be the output?

```
let fun = (a, ...b) => {  
  return a * b.length;  
};  
  
console.log(fun(2, "michale", "hello"));
```

Clear selection

What will be the output here?

```
function Car (name, price){  
  this.name = name;  
  this.price = price;  
}  
  
function Truck (){  
  Car.call(this, "volvo", "12lac");  
  this.fuel = "diesel";  
}  
  
console.log(new Truck().name);
```

Clear selection

Guess the output

```
let str = "masai";  
let arr = [...str];  
console.log(arr);
```

Clear selection

What will be the output?

```
function fun(a, ...b) {  
  console.log(arguments.length);  
}  
fun(3, "michale", "hello");
```

Clear selection

What will be in the console?

```
let arr = [];  
for (let i = 1; i < 5; i++) {  
  arr.push(() => {  
    console.log(i);  
  });  
}  
arr.forEach((el) => el());
```
